

TREE MARKING CODES

Consumers Energy Tree Marking Codes

Trees to be trimmed are marked with a blue dot. ●

Trees to be cut down are marked with a blue X. X

If outside the easement they will be marked with a blue A (dangerous trees).

Brush to be cleared may be marked with a blue slash (/).

Road Commission of Kalamazoo Co. Tree Marking Codes

Trees to be removed are marked with an Orange X X and an assigned number: 2 (example). ***

Trees to be pruned are marked with a yellow dot. ●

Pink Flags placed by a fallen tree..... P

Property owner has 15 days to call RCKC to arrange removal options, or keep the wood. (Also used to mark survey work).

*** RCKC will send the property owner a form asking what they want done with the wood. On the form they will see the number painted on the tree, along with size and species of every tree that is being removed on that property. The property owners have two weeks to mail the form back to them, so they know what to do with the wood. If there is a dot on the tree RCKC will be pruning that tree. RCKC will also send a form to these property owners asking what they want done with the limbs or brush.
